### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roberto Devoto Reg. No. 55,108 on August 9, 2005.

### IN THE CLAIMS

Please cancel claims 53 and 58 without prejudice or disclaimer.

Please amend claims 49 and 54 as follows:

49. (Currently Amended) A screening and survey selection system, comprising:

- a master screener configured to filter a subset of surveys from among a set of surveys based on criteria related to a respondent;
- a survey queue having a plurality of queue slots, each of said queue slots including a survey from said subset of surveys ~~that includes the subset of surveys;~~ and
- a weighted random generator adapted to select one of said surveys in said subset of surveys at random by generating a number that corresponds to selected one of said plurality of queue slots and that is dependent upon at least one characteristic associated with said respondent. ~~enable selection of one of the surveys in the subset of surveys at random.~~

Art Unit: 2157

53. (Canceled)

54. (Currently Amended) A computer system for effecting a screening and survey selection system over a computer network, comprising:

- a database coupled to the computer network and including a survey queue having a plurality of slots, each of said queue slots including a survey set of surveys available for a respondent; and
- a sever associated with the database, including:
  - a master screener configured to identify a subset of surveys from among a ~~the~~ set of surveys based on criteria related to the respondent; and
- a weighted random number generator configured to select one of said surveys in said subset of surveys at random by generating a number that corresponds to selected one of said plurality of queue slots and that is dependent upon at least one characteristic associated with said respondent. ~~enable selection of one of the surveys in the subset of surveys at random.~~

58. (Canceled)

### *Reasons for Allowance*

2. The following is an examiner's statement for reasons of allowance: the closet prior art of record (Hamlin et al., U.S. Pat. No. 2004,0193479) and Frerichs et al (U.S. Pat. No. 6,684,249) does not teach or suggest a weighted random number generator adapted to generate a number that corresponds to a selected one said plurality of queue slots and that is dependent upon at least one characteristic associated with said respondent in combination with all the elements of the independent claims as argued by the Applicants.

Art Unit: 2157

So, as indicated by the above statement, Applicants' argument has been persuasive, in light of the claim limitations as well as the enabling portion of the specification.

3. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "comments on Statements of Reasons for Allowance."

4. Claims 1-10, 21-30, 32-35, 43-52, 54-57.
